Human Resources,

I am a skilled designer looking for creative work in either a freelance or staff position. My areas of expertise include cutting edge graphic, web, web animation, and print design. You will also find my digital magazine, powerpoint and email blast presentations to be equally compelling.

I offer exceptional portfolios in each of these areas. My background not only includes expertise with various software including Illustrator, Photoshop, inDesign, Powerpoint, Edge Animate, Flash, HTML5, CSS3, jQuery, Sorenson Video, but analytical & programming skills as well.

My education includes a degree from the University of Michigan and continuation classes in illustration, animation graphic design and architectural rendering from San Francisco State, UCLA and Art Center, Pasadena.

As a designer my goal is to create visually stunning and functional works in various mediums.

My skill set also include twenty years working as a set/production/presentation designer. I have designed over 200 national ad campaigns. Please visit my portfolios below to review each of these categories.
